

BLOC-NOTES

1

March 28, 2011

to all members
of affiliated unions

FNEEQ GOES SOCIAL MEDIA!

In order to keep union members well informed, FNEEQ produces various publications. Some of them are directed to everyone, while others address specific members, such as those from CEGEPs, universities and the private institutions. In addition, FNEEQ's website has been serving members and the public for well over a decade.

Recognizing the immense potential of social networks, the Federation has decided to be present on Facebook. The page that has been created is not intended to replace our other information tools, but rather to offer new, more timely and current information, from here and elsewhere. While issues on education will take an important place, information concerning other committees of the Federation will be available. This page also aims to draw attention to social issues that concern us all.

The interactive platform that provides a Facebook page also allows those who subscribe to enrich the content and share with each other, making it a true virtual agora!

If you already use Facebook, please add the page FNEEQ to the list of those you «love»! If you do not, this is a good opportunity to get started!

<http://www.facebook.com/FneeqCSN>

We're also on Twitter. This medium allows the rapid dissemination of timely information in 140 characters.
